

9/11/17

To,

The Honors Committee

I am pleased to write a letter of recommendation for George Pappas, he has been a student in my Principles of Macroeconomics and Microeconomics.

As a teacher I am observing that George is an excellent student, has maintained perfect attendance in class, is enthusiastic about the subject, comes prepared to class and has the quality to work hard, as reflected in his assignments.

I support George's honors application, as he did outstanding research as part of his microeconomics honors project. The honor project will give him an opportunity to put his thinking skills and research skills to work and I strongly recommend him, for the honors project.

I wish George the very best in all academic and professional endeavors and am happy to write this recommendation letter supporting his honors project application.

Sincerely,

Sowjanya Dharmasankar
